

# Nagaoka Inc.

## —Message from the Company—

Our company has achieved stable growth without major fluctuations in performance by maintaining a well-balanced business relationship with customers across a wide range of industries. To meet diverse requirements in terms of shapes, standards, and quality, we have actively invested in equipment and worked to enhance our technological capabilities. In recent years, we have also focused on joint research with universities, engaging in projects such as the development of snow-removal robots and the production of Buddhist statue figurines. Looking ahead, we aim to strengthen our efforts in manufacturing molds for plastic models, a market that has seen growing demand overseas in recent years.
